

## PETITION FOR RECALL IS FOUND SUFFICIENT

City Clerk Finds 700 Signatures More Than Needed on Instrument to Oust Davie

ELECTION TO BE HELD EARLY IN DECEMBER

Only 200 Withdrawals Filed by Friends of the Mayor; Fourth of These Held to Be Invalid

With a surplus of approximately 700 signatures, the petition for the recall of Mayor John L. Davie was certified as sufficient to the city council today by City Clerk L. W. Cummings, making the calling of an election mandatory upon the council five days hence. Mayor Davie has five days under the charter during which time he may tender his resignation. The election must be held at a date not less than thirty days nor more than sixty days in the future. It will probably be held December 4.

The report of City Clerk Cummings was filed with the council today without comment. The action of the city clerk in certifying the petition as sufficient obviates an appeal from the decision of the Appellate Court of the state in the case of the recall petition that the original petition was invalid as to form.

### VIGOROUS CAMPAIGN TO BE WAGED

"We are satisfied with the situation so far as things have gone," said Attorney Henry E. Skinner, manager of the recall campaign. "It was no more than we expected. The large number of surplus signatures shows the frame of mind of the people regarding the incumbency of the city's chief executive. We are now prepared to go ahead and wage a campaign that will remove him from office by the vote of the people."

Mayor Davie would not comment upon the situation other than to state that he welcomes the controversy going to a vote of the electors.

Only 200 withdrawals were filed with the city clerk by the supporters of the mayor. Nearly one fourth of them were invalid, according to a hasty examination. Had they all been valid, the withdrawal campaign would have fallen far short of withdrawing sufficient names to make the petition effective. The petition required 6,475 valid signatures and the excess of 700 is approximately net.

### WORDING DECLARED ACCORDING TO CHARTER

The recall was started on August 5 when R. D. Van Nest filed notice with the city clerk that a petition would be placed in circulation. Immediately a large number of verification deputies were sworn in and the taking of signatures commenced. The original petition was filed with the city clerk almost four weeks ago. At that time the wording of the reasons for and against the recall was declared by the city clerk to be discriminatory and so held by the city attorney. A writ of review in the Appellate Court resulted in the petition being sustained and the city clerk was ordered to return it to the filer for amendment. This was done and 2,400 more names were added with the result that a week ago today the amended petition was placed in the hands of the city clerk for checking.

### CANDIDATES FOR OFFICE ARE SOUGHT

Speculation arose today over the question of whom will be the leading candidate against Mayor Davie.

During the progress of the recall, instituted two months ago, City Auditor I. H. Clay has been prominently mentioned as a possible candidate. In fact, the name of the city auditor has stood out in the foreground despite his denials of any intention to run.

Now, on the highest authority today, it is said that Auditor Clay will positively not be a candidate in the recall election, for the reason that he will be a candidate a year from now for the office of county assessor.

The mentioning of Clay's name in connection with county politics today is the first intimation given that he aspires to the office of assessor which is now held by C. Fred Horner, former chairman of the Board of Supervisors.

Among the close friends of Auditor Clay it is practically agreed that he will be a candidate next year. At the present time Clay is at Redding attending an auditors' convention. He will probably remain until the end of the week.

In view of the fact that Clay is known to aspire to the office of county assessor, his friends concede that he will not now become a candidate for mayor.

### MAKES NEW LOAN

WASHINGTON, Oct. 8.—The United States today made a loan of \$15,000,000 to Great Britain. It was announced at the treasury department. This brings the total loans to the allies to \$2,333,400,000.

### HIGH MASON DIES

LONDON, Oct. 8.—Sir Edward Lechworth, grand secretary of English Free Masons, died in London today. He was 84 years old.

## POLICE HAVE NO RESPECT FOR FLAG OF TRUCE

SAN FRANCISCO, Oct. 8.—Violation of all the rules that are supposed to govern a flag of truce is the accusation made against two policemen by twenty or more of the striking pupils of the Bernal school out on Courtland avenue. As a result of the "violation," the twenty or more are in the juvenile detention home.

The strike is the result of a decision of the pupils that they would not go to school until their teachers ceased to be patrons of the cars of the United Railroads. One hundred and forty-seven pupils walked out Thursday. Some of them erected fortifications and during school hours they sought the fastness of Bernal Heights and repelled with rocks any attempt of truant officers to capture them.

Just what prompted the use of the flag of truce has not developed as yet, for the twenty or more in the Detention Home are so indignant at the "uncivilized" action of the police that they will not discuss the minor points of the situation.

"Them cops is worse'n Germans," said one of the lads who bore the truce flag.

## One Dying, 4 Hurt in Car-Auto Smash

Three-year-old Edward Taylor, son of Mr. and Mrs. Lou Taylor of 3155 Broadway street, was fatally injured this afternoon when an automobile driven by his father was struck by a north-bound street car at East Fourteenth street and Twenty-fourth avenue. The father and mother and another six-year-old boy were also injured.

The automobile, which was wrecked, was driving east on Twenty-fourth avenue, had stopped its machine to allow a south-bound street car to pass, when it started across the street without observing the approach of another car from the opposite direction.

The injured are:

EDWARD TAYLOR, 3 years old; fractured skull.

ALLEN TAYLOR, 6 years old; badly cut and bruised.

LOU TAYLOR, cuts and bruises.

MRS. LOU TAYLOR, bad cuts on the head and shoulders.

MRS. M. C. KING, 1561 East Fourteenth street, sister of Mrs. Taylor; shaken and bruised.

## Kaufman to Hold Job For Four Months

Rumors at the city hall today to the effect that George C. Kaufman, appointee of Mayor Davie as member of the civil service board, will resign shortly his office brought from Mayor Davie the significant statement that at the time Kaufman accepted the appointment he would only serve four months.

Kaufman was named July 1 by the mayor to fill the expired term of Irving C. Lewis on the civil service board. If he only intended to serve for four months, this time will expire November 1.

"I have not received any resignation from George Kaufman. If he has resigned, he intends to do so. I do not know it. However, he told me when he accepted my appointment that he would only do so for four months," says Davie.

## SENATOR PROBE

WASHINGTON, Oct. 8.—Senator Robert M. La Follette of Wisconsin today faced the fight of all his turbulent career to hold his seat in the crushing democratic "tidal wave" committee appointed by the Senate privileges and elections committee to inquire into his alleged seditious St. Paul speech held its first meeting today to arrange its plans for conducting its investigation.

Its instructions are to establish the stenographic accuracy of the copy of the speech filed by the Senate by Governor J. A. A. Burnquist of Minnesota and to determine the accuracy of the statement of fact contained in the address.

## SOUGHT ON DRAFT

ALAMEDA, Oct. 8.—Charged with desertion, Frederick C. Horst, son of William Horst of 906 Santa Clara avenue and member of a prominent family of this city, is being sought by the police at the request of the local exemption board together with Roy Silva and George B. Pierce, two other alleged "slackers." All three men, it is charged, failed to appear before the board when summoned for examination.

Horst opposed military service on several grounds, and appealed to the District Board for exemption.

## NO EARLY PEACE

WASHINGTON, Oct. 8.—Americans who are discussing early peace with Germany forget that it will mean crushing the democratic "tidal wave" which the United States has always stood for, said President Wilson today to the organizers of a patriotic educational movement who called at the White House. He said the only way to end the war is by complete victory of the nations representing those ideals over Germany's doctrine of force.

## MYSTERY IN U. C. DEATH INCREASES

Autopsy Fails to Show Reason for Demise of Injured Football Player; Doctors Puzzled

Geo. Blewett, Freshman, Suddenly Goes Blind, Then Dies; No Clot on Brain Is Found

Successing to injuries received in a football game last Saturday afternoon, George Albert Blewett, a freshman in the University of California, died early this morning in the Lane hospital from a direct cause that has not been determined by physicians and one that may become another mystery to baffled medical science. This is the first fatality in many years resulting from football activities on the Pacific coast and the death of the young student has cast a gloom over the campus.

Blewett, who celebrated his twenty-first birthday on the very day of his injury, was playing with a university team in a game against a team of naval yeomen at the Yerba Buena Island training camp. During the third quarter of the game he was tackled and thrown heavily. When the scrimmage cleared it was found that his right leg had been fractured in two places. He was carried off the field and the medical staff gave him first treatment and later removed to Lane hospital.

### GOES BLIND, THEN DIES; IS MYSTERY

Yesterday afternoon, without warning, he became suddenly blind and soon afterward relapsed into unconsciousness. Hospital physicians diagnosed a basal fracture of the skull, with the formation of a blood clot on the brain, which had caused the sudden blindness. The probability of them from the University of California medical school were called in consultation and although they did not agree on the diagnosis an operation was performed. Despite all efforts to save his life young Blewett died early this morning.

Not satisfied with the result of the operation, and in hopes that the exact cause of death might be determined, an autopsy was held today, but the result did not clear brain from the mystery. Dr. William Ophuls, professor of pathology of the Stanford University medical school and one of the foremost authorities on brain disease in the United States, was called in to perform the autopsy, which was performed by Dr. John R. Clark, county autopsy surgeon.

The case is one of the most mysterious that have ever encountered," said Dr. Clark. "Absolutely nothing was found that would indicate the cause of death. There was no fracture of the skull, no hemorrhage, nothing abnormal in any way."

According to Dr. Ophuls, there is a remote chance that death may be traced to fatty emboli on the brain. This, in layman's language, is a bit of fat carried to the brain from the lungs. It is so minute that its presence can only be detected by microscopic examination.

It has been learned at the University of California that Blewett fell while practicing football about a week ago and that he complained afterwards of pains in the back of the neck.

The body will be taken to Los Angeles at 5 o'clock this afternoon.

Blewett was the son of George A. Blewett, a blacksmithing contractor of 3360 South Vermont street, Los Angeles. He came to Berkeley in January of this year and registered in the college of letters and science. He was a member of the Delta Upsilon fraternity and a popular student. His brother, James Blewett, 18 years old, was playing on the same team.

### CAME NOT BLAMED FOR DEATH BY COACH

Coach Andy Smith of the University of California denied this morning that American football caused the death of Blewett.

In an unfortunate affair of this kind football always gets the blame," said Smith. "If a football player's death should result from a broken fingernail, or any minor injury, it is blamed on football."

Blewett had no fracture of the skull. I called him up after he was hurt and he was rational. He even laughed and joked about his broken leg."

"I was told Blewett's death was caused by a small particle of bone that got into the blood and clogging the heart action."

Smith said there had never been a death on the Pacific coast caused by American football, so far as he knew. "I have only been West two years," he continued; "but I never heard of a death from football out here."

## FLOOD DEADLY

WASHINGTON, Oct. 8.—Never in the history of China has a flood worked such devastation and cost so many lives as already has resulted from the great inundation now in progress, according to advices received here today at the Chinese legation.

So great is the distress among the people of the flooded districts that all of the Chinese officials have been called upon to contribute 10 per cent of their salaries for relief work. Some action by the American Red Cross to meet the urgent appeal for \$200,000 submitted last week by Paul Reinsch, the American minister, is expected soon.

## WILL NOT SPEAK

WASHINGTON, Oct. 8.—President Wilson plans no vacation or speaking trip between now and the Christmas holidays, and will devote most of his time here in Washington directing and coordinating war work.

The President has declined a number of invitations to make addresses, but is considering a trip to New Orleans in February to attend the bi-centennial celebration of the city's foundation.

## BERLIN WAR PARTIES AT GRIPS

Police Forestall I. W. W. Arson Plotting Here

INCENDIARY FIRES LAID IN 3 CITIES

Nedderman on Guard Against Conspiracy Spreading to Oakland; Plans for Defense

Thirty Suspects Held in Modesto; New Clues Sought; Fires in Stockton, San Diego

Convinced from the reports received from various cities throughout the State that there is a far-reaching conspiracy on foot to create by incendiary means a reign of terror, Chief of Police Nedderman prepared today to co-operate with the fire department in what is believed will be a successful effort to forestall the plans of those behind the plot.

Chief Nedderman conferred today with members of the County Council of Defense, and through this organization the police and fire departments will receive additional assistance in preventing any such results of the plot as have caused consternation in Modesto, Stockton and San Diego.

So far none of the city officials has received warning that the fires would be set. Such warnings were sent to the Modesto police and the number of fires that would be set was stated. The belief is that the fires have been set by members of the I. W. W.

"Nothing has happened here to cause any direct belief that the incendiary plot will extend to this city," said Chief Nedderman.

There is a very strong feeling in Oakland, not anywhere else in Alameda county, against the I. W. W. in connection with the fire department, sheriff's office and defense council, every precaution is being taken to prevent the least chance of a start in any such conspiracy.

### CLEWS TO IDENTIFY OF PLOTTERS SOUGHT

MODESTO, Oct. 8.—Heavily armed guards combed every district of the city all last night in an effort to run to earth the perpetrators of the incendiary fire plot which terrorized the city Saturday night and resulted in the death of a woman and the destruction of property.

The plotters failed to continue their work of destruction.

Today the authorities are tracing every clue obtainable in an effort to capture the leader of the conspiracy, and to identify the other participants. It is said to be a party of about eight men who kept the city in a turmoil Saturday night.

Thirty suspects are being held in the county jail today, although the authorities have little or no evidence against any of them. A warrant placed against a charge against them. Among the prisoners being held are several who were carrying I. W. W. cards when taken into custody.

Daniel Lavery, said to be one of the leaders of the fire plot, was in the city, was turned over to federal authorities at San Francisco today. Lavery was arrested Friday by Deputy Sheriff Davis, while distributing copies of the International Socialist Review and "Solidarity," two radical publications. Federal agents recently raided the offices of the latter publication in Chicago and confiscated the equipment.

Eight fires broke out at the same time in various sections of Modesto Saturday night and from midnight until dawn the city was in a night of apprehension. Alarm bells ringing brought hundreds of citizens to arms and there was danger for a time that they would take the law into their own hands and stage a lynching.

All the Modesto fires were in barns and apparently started by balls of phosphorus thrown into dry hay. Firemen and citizens combined their efforts and succeeded in extinguishing the flames.

### FIREMEN MISLED BY FALSE ALARM

The first alarm of fire in Modesto was a false alarm from the western part of town. Hardly had the alarm sounded than the big city barn in the extreme eastern part of the city were found ablaze in every corner. Twelve head of fine draft stock was lost in this fire, together with harness, twenty tons of hay and general equipment belonging to the City Street Department.

While this fire was in progress, two other alarms were turned in, one for the big Mowry Livery Stable, where the night man in charge, awakened by one of the other alarms, discovered fire in several of the mangers. Quick work stopped this fire with small damage.

At the same time a large barn in the northern part of town was discovered ablaze. At intervals of about a half hour four other barns all situated in the extreme eastern part of the city were found ablaze in every corner. Twelve head of fine draft stock was lost in this fire, together with harness, twenty tons of hay and general equipment belonging to the City Street Department.

### WINERY IS FIRED BY UNKNOWN MEN

STOCKTON, Oct. 8.—Cooperation with a quantity of 66,000 gallons, 4,000 of new wine and 1,000 gallons of old wine was destroyed in a fire set by vandals at the M. A. Podesta winery, a short distance north of here. All of the seven doors leading into the winery had been caved in and fire had been started at all of them.

## NEW LIBERTY MOTOR TRUCK, BUILT IN SECRET FOR THE U. S. ARMY TRANSPORT, COMPLETED

BY ASSOCIATED PRESS LEARNED WIRE TO TRIBUNE

LIMA, O., Oct. 8.—The Liberty motor truck for the United States army, product of the greatest motor truck designers of the country and the combined genius of twelve motor truck plants and sixty-two automobile factories, was completed here today at a local manufacturing plant.

The standardized machine, of which 35,000 will be turned out in the first half of 1918 for the army, is said to represent the perfection of automobile truck developments. Its motor power is derived from the new Liberty motor, recently perfected at Washington by war department experts.

The first Liberty motor truck was built in the greatest secrecy to protect it from enemy eyes. A building without windows and lighted only by skylights housed the truck during the three weeks of its construction.

The plant was closely guarded by armed men night and day. An added precaution a second truck was assembled in an Eastern city. As each part was completed here a duplicate was dispatched to a northern New York town, where mechanics assembled a second machine.

Similar precautions surrounded parts manufactured in the sixty

odd factories which contributed to them.

The completed truck is said to be the strongest, compared to the load it is designed to carry, ever turned out in this country. Every part has been enormously strengthened to cope with the rough usage of war. It carries more than 10,000 pounds of dead weight more than commercial trucks of corresponding capacity. The truck will be used only for the army and will not be placed on the market, government officials say.

Because of its increased weight, normal use because of the large amount of gasoline and oil required for its operation. Also it is said that the factories which have given free use of their plants for the design stipulated that the new truck was to be for government use only.

In outward design the machine represents no radical departure from the usual army motor truck. However, every part has been so standardized that when the first order of 35,000 trucks are delivered to the army, it is said they could all be torn down, the parts mixed indiscriminately and 35,000 complete trucks reassembled. All parts are interchangeable, which is expected to give added efficiency at the front.

### Ministers of Latin States To Withdraw

By Charles P. Stewart United Press Staff Correspondent BUENOS AIRES, Oct. 8.—Two more Latin-American nations were today aligned against autocracy and frightfulness on the seas. The Peruvian government, according to Lima dispatches, followed up its action in handing passports to German officials there with cable instructions to the Peruvian minister in Berlin to demand his own safe conduct.

### Capture Crew Of Sea Raider In S. Pacific

BY ASSOCIATED PRESS LEARNED WIRE TO TRIBUNE

LONDON, Oct. 8.—An Exchange Telegraph dispatch from Melbourne says it is reported there that a whale boat with a crew of Germans from the raider See Adler had been captured in the vicinity of Fiji Islands.

A steamer which was approaching Wakaya Island was said to have sighted a suspicious armed launch. The steamer bore down on the tiny vessel and signalled it to surrender. The Germans did so. They were surprised and overcome with anger when they discovered their captor was entirely unarmed.

### ELEVEN STATES BREAK WITH GERMAN RULER

With Peru and Uruguay at diplomatic odds with Germany, eleven Central and South American nations have joined the world combine against the Central powers.

Cuba declares a state of war against Germany April 7 immediately following the American action. On April 10 Panama took the same step and on the day following Brazil broke relations. Bolivia suspended diplomatic interchange on April 13; Guatemala on April 28; Honduras on May 18; Nicaragua on May 19; Germany severed relations with Haiti June 9; Santo Domingo broke with Germany June 11.

NOT TO RECEIVE ENVOY IN ECUADOR

QUITO, Ecuador, Oct. 8.—The Ecuadorian secretary of foreign affairs today sent a cablegram to the Ecuadorian legation at Lima announcing that Dr. Perl, the German minister to Peru and Ecuador, resident at Lima, will not be officially received by the Ecuadorian government in case he attempts to come to Ecuador. The action of the Ecuadorian government foreign secretary is understood to have been taken to demonstrate Ecuador's close affiliation with the union of the American republics.

Dr. Perl, the minister to Peru, was handed his passports by the Peruvian government on Saturday. It was reported from Lima that he would go to Ecuador.

### STEAMER STOPPED BY BRITISH CRUISER

MONTEVIDEO, Uruguay, Oct. 7.—A British cruiser stopped an outward-bound Spanish steamer seven miles off the coast, according to advices received here today. The steamer was held up, it is supposed, in the belief that Count Karl von Eubourg, the German minister to Argentina, who recently was given his passports, might be on board.

A Buenos Ayres despatch October 5 said that Count von Eubourg left Argentina on that day for Montevideo, where he boarded a Spanish steamer, which later sailed for Spain. He was given a personal safe conduct, but his papers were held to be not inviolable.

### CRUISERS MINED

LONDON, Oct. 8.—Arrivals at Amsterdam from Hamburg, says a despatch to the Exchange Telegraph Company, report that early last week a new German battle cruiser, while on a trial run off Heligoland, struck a mine and was seriously damaged. Three officers and twenty sailors were drowned. The vessel was towed to port.

### BEGIN MINE PROBE

GLOBE, Ariz., Oct. 8.—Here to investigate industrial conditions in the copper mining camps of the West and Southwest, Secretary of Labor William B. Wilson and the commission appointed by the President are preparing today to begin their inquiry at Globe.

## REICHSTAG FACTIONS SPLIT ON PEACE AIM

Pan-German Program of Annexations and Indemnities to Be Called to Time by Radicals

MICHAELIS' JOB TO SOOTHE CRITICS

Pope Pius Turns His Attention to Efforts to Prevent Bombing—All Open Cities

BY ASSOCIATED PRESS LEARNED WIRE TO TRIBUNE

External pressure to force the German government to set forth clearly its war aims having failed on the face of internal conditions within the empire threaten to compel the issuance of a full statement of the many's aims. What the German leaders follow and what they will be discussed in the Reichstag.

Dr. Michaelis, the Reichstag speaker, is finding the war aims debate a difficult task. He is expected to face the critics of the government's policy in the Reichstag. Whether, as has been charged, the bureaucracy and the army have been furthering the German scheme of annexation and indemnities, is expected to be brought out in the Reichstag debate.

Dr. Michaelis on Saturday sent a letter to the Interior Minister before the Reichstag to make a statement on the behalf of the Reichstag. He is expected to make a statement to mollify the critical members of the Reichstag and the sitting was adjourned to today after the vice-chancellor's speech had been interrupted. General von Stehm, the war minister, was joined when he attempted to explain the army's side of the situation that the high command was using the Morning Post from Stockholm.

# REICHSTAG'S LEADERS TO CLARIFY AIM

(Continued From Page 1)

very strong methods to help the Pan-German agitation.

Former Chancellor von Bethmann-Hollweg, some months before his resignation had a test of strength with Admiral von Tirpitz, the reputed organizer of ruthless submarine warfare, and the chancellor won. The admiral since has been busy and the new Reichstag party, of which he is one of the sponsors, according to recent reports has been very active in opposing the Reichstag majority declaration for peace without annexations or indemnities.

It has now come to a test between the followers of von Tirpitz and the Pan-Germans on one side and the majority of the Reichstag on the other. Recent reports have shown that the feeling between the Pan-Germans and the Reichstag majority has been becoming more intense, some socialist members of the Reichstag having gone so far as to charge that the agitation of the Pan-Germans is dividing the German people into camps on the question of the aims of the war.

AMSTERDAM, Oct. 8.—Geo. Goethel, progressive member of the Reichstag, is quoted in a Berlin despatch as having said at a meeting of the Central committee of his party that although the military situation was satisfactory there was no hope of crushing Germany's enemies on land.

As for the submarine campaign 7,444,444 tons of shipping had been sunk, he asserted, but no disposition toward peace on the part of England was discernible. A rationing system for food stuffs had not been even introduced, and no one was able to say when the U. S. would make America more inclined for peace.

"America cannot be forced to make peace," Herr Goethel continued. "We cannot force America to pay a war indemnity. There remains only England. But should we, in order to obtain an indemnity of 10,000,000,000, sacrifice 5,000,000,000 and another half million men?"

Germany's allies, Herr Goethel continued, were not inclined to continue the war for Pan-German plans of conquest, but were striving for peace, and understanding and conciliation while the Pan-German clamor for annexations was finding a bad reception among them. He asserted that the best working house and insufficient feeding at home increased the desire for peace among the workers, and that strikes might be expected if the war should be continued for aims of conquest.

POPE STRIVING TO END BOMBING CITIES

GENEVA, Oct. 8.—Pausing in his peace efforts, Pope Benedict now is endeavoring to end air attacks against unprotected cities in which only non-combatants suffer, said a despatch from Rome today. It is understood that negotiations have already been made to Berlin and Vienna with a view to stopping German raids over English and French soil and Austro-Hungarian attacks against open Italian cities. The pontiff believes if this central power conference, their raids the allies will not engage in reprisals.

BORDEAUX, Oct. 8.—The National Socialist League noted in session after settling trifling disputes between the majority and minority, resumed today the discussion of questions relating to the war and eventual peace.

# "KAISER" FOSTER MOTHER TO BROOD OF ORPHAN CHICKENS

Police Inspector William Kyle is the owner of an old horse which he has named "Kaiser." Kyle gave the animal the name in the hope that someone would shoot him. The inspector got the animal from an ashman friend who had raised him from a cutting, had watched him flower into maturity and then gave him to the inspector in the hope that Kyle would shoot him for old age infirmities.

Kyle has been stabling his antithesis, Pegasus in a neighbor's corral. Last week "Kaiser" died on an undergarment and four pairs of socks from the neighbor's line. The neighbor chased him down to the Kyle mansion with a broom handle and a vocabulary borrowed from the diary of Captain Kidd. Nay more, he ran the ravenous equine into the Kyle barn so fast that the horse stepped on the lambs of a setting hen. The hen cackled weakly and died. The hen cackled weakly and died.

When Kyle probated the hen's estate a few minutes later he found he was heir to thirteen warm eggs that needed a foster-parent. The inspector was too busy to finish the job for the defunct hen, so he dropped the eggs back in the nest and went back to his daily work of keeping the Police Court busy.

Worried over the results of his careless footstep, did the best he could to comfort the grief-stricken eggs. This morning they hatched out.

According to the police inspector, it is a touching sight to see the horse with the little fluffy chicks around his feet, trying to chuck like their dead mother and dig worms for them. The horse is also trying to teach them to eat hay.

"Kaiser always was fond of chickens," said Kyle. "He used to stop and watch them on the street."

The inspector says he will rent out his horse for a setting hen at reasonable rates.

# VALE, MR. PEDDLER, RUSSIAN STRIKE TIES UP ROADS NOW SELLS JUNK

"Gone, gone are all the old familiar faces."—Old English Poet.

"The old order changed, yielding place to new."—Old American Poet.

"Things ain't like they were ten years ago."—Sad-eyed ex-fruit peddler.

Where are they, who in yesterday, yelled high, yelled low: "Wa-tee-meloon-n-a-z-z-z-z; wild mountain apples-a-z-z; straw-berric-a-z-z?"

Where are the men who walked at the head of rib-penetrating horses, yelling their wares to thrifty housewives? Where are the highly-piled wagons of bananas—the heavily laden orange vehicles—the pie-peddlers who several years ago and a generation before that sold their wares at below-market quotations?

PEDDLER'S PASS.

Wholesale market men no longer sell to these peddlers their stock. Of course, there are men with regular routes, who sell from wagons. But these men do not yell to the skies their wares.

The fruit peddler, as a familiar type to Oakland and Alameda county residents, is no more. Once in a while, an old-time peddler will sell bargains in certain commodities and make a selling drive, but he is too few to mention.

There's more money in junk. Old copper, zinc, lead, iron, sacks, clothing, stoves, bedsteads, furniture and the like mean more prosperity than foodstuffs. Housewives would just as leave pay extraordinary prices at their corner grocery for fruit and vegetables. They don't care to buy. But they do care to sell—and they sell everything about the house, according to a former fruit peddler, from hubby's old shoes to his good, though somewhat colored meerschaum.

TOO CLOSE WATCH.

Then, too, the authorities are watching with great care all fruit and produce sold these days. Worm-tunneled apples are nowadays thrown to the hawks. Bananas must be ripe—not over-ripe to sell. In other words, things are different.

# INVOLVE NEGROES

COLUMBUS, N. M., Oct. 8.—Many other members of the Twenty-fourth United States Infantry (negro troops). In addition to the 156 negro soldiers held at Fort Bliss, may be implicated in the Houston, Texas, riots, it was indicated today. Six hundred men of the Third battalion are detained in camp here as a heavy guard of the Sixty-fourth Infantry and 35 additional negroes are confined in a stockade. It was learned with the arrival of Colonel John A. Hull and Major D. V. Sutphin, judge-advocate, from Fort Bliss, in connection with the investigation.

# DIVER ESCAPES

MADRID, Oct. 8.—A German submarine interned at Cadix has escaped.

Several German submarines have sought refuge in Spanish ports during the war, and one of them, which put in at Cadix, was reported to have escaped the port later by Spanish torpedo-boats. To prevent further incidents of this nature, King Alfonso on June 30 last signed a decree forbidding submarines of belligerent powers to navigate Spanish waters and enter Spanish ports. It was declared that any submarines which entered the Spanish zone would be interned.

# TAILORS LOSING

CHICAGO, Oct. 8.—It was asserted at the semi-annual meeting of the United National Clothiers' Association here today that the high price of materials has driven the small retail clothiers out of business in innumerable cases. Only the big retailers survive, it was said, and these are getting along on the smallest margin of profit where they do not sell at actual cost.

# CABINET CRISIS

STOCKHOLM, Oct. 8.—Representatives of various political parties at a meeting yesterday at the ministry of foreign affairs decided to reply separately to the appeal of King Gustave to form a coalition cabinet to succeed the Swast cabinet, which resigned last week.

# PLAN AIR SCHOOL

NEW HAVEN, Oct. 8.—A school of military aeronautics at Yale University has been planned and sanctioned now with the War Department, according to announcement today.

FILES PETITION.

SAN FRANCISCO, Oct. 8.—A petition in bankruptcy was filed by John Barry Wren, a carpenter of Oakland, in the district court of appeals this morning. His assets are \$550, liabilities \$1087.87.

# KRYPTOKS

are the double vision glasses without lines, cement bumps. If you are thinking of having a pair, buy now before the price is advanced.

estate a few minutes later he found he was heir to thirteen warm eggs that needed a foster-parent. The inspector was too busy to finish the job for the defunct hen, so he dropped the eggs back in the nest and went back to his daily work of keeping the Police Court busy.

Worried over the results of his careless footstep, did the best he could to comfort the grief-stricken eggs. This morning they hatched out.

According to the police inspector, it is a touching sight to see the horse with the little fluffy chicks around his feet, trying to chuck like their dead mother and dig worms for them. The horse is also trying to teach them to eat hay.

"Kaiser always was fond of chickens," said Kyle. "He used to stop and watch them on the street."

The inspector says he will rent out his horse for a setting hen at reasonable rates.

# VALE, MR. PEDDLER, RUSSIAN STRIKE TIES UP ROADS NOW SELLS JUNK

PETROGRAD, Sunday, Oct. 7.—The general railway strike order which promises a complete tie-up of traffic except sanitary and military trains, became effective last night. A passenger train scheduled to leave Petrograd today except for the front were abandoned. The strike was carried into effect in spite of the warning given by the minister of posts and telegraphs that the strikers would have to answer charges of treason and calling upon the telegraph operators to refuse to transmit the strike order.

All disorders recently reported from different places in the interior of Russia have been put down, according to a statement from Minister of the Interior Nikitin, made through the semi-official agency today. Mr. Nikitin is a member of the government directory of five.

# LAWSON'S SANITY PROBLEM OF JURY

The second battle for the life of Urban R. Lawson, convicted murderer, began this morning in Judge Donahue's court where a jury is being impaneled to determine the convicted man's sanity.

A telegram, which this morning received by Lawson's attorneys, from Dr. J. W. Milligan, superintendent of the Indiana state hospital for the insane, and one of the leading alienists of the country, as follows:

"Lawson defective beyond doubt. Unable to give statement from memory without consulting prison records."

Lawson served time in the Indiana state prison from which he was paroled.

On a morning caused his client to be examined by Dr. Hamilton and J. W. Milligan, specialists in mental disorders.

Lawson on June 30 shot and killed E. H. Wood at the Golden Eagle hotel after a quarrel over Wood's wife.

# GAS RAISE TO BE UNDER PROBE

By resolution of the city council today the city attorney was instructed to investigate the proposed increase of 12 1/2 per cent in gas rates in the city by the Pacific Gas and Electric Company. The company has filed its application for the increase with the State Railroad Commission. The application also involves the heating system of the company as distributed in the downtown district.

Mayor Davis suggested that steps similar to those now in progress to combat the proposed increase in transbay ferry rates, be taken. The city attorney will make a report on the matter to the council.

# TO CELEBRATE FIRE DAY HERE

National Fire Day will be celebrated in Oakland tomorrow under the auspices of the fire department officials and the national board of fire underwriters when speeches will be made in the city schools touching on the subject of fire prevention.

Oakland is one of two California cities which observed the national day last year, a fact which gives the city prominence in insurance circles throughout the country. Long Beach also celebrated.

Under the direction of Fire Chief Elliot Whitehead members of the department and officials of the underwriters will visit the schools.

# MANY GIVEN WORK

One thousand four hundred and fifty-three persons, 259 of them women, obtained employment in September through the Oakland office of the State Public Employment Bureau. This was an increase of 653 over the placements of the corresponding months of 1916 and 63 more than for August this year.

Of the 1453 placements, 231 were with hotels and restaurants, followed by 228 in wholesale and retail establishments. Private homes took 184; transportation 173; factories 121; building construction 111; street highway work 70; agricultural 67, and the rest were scattered among various industries.

Since the establishment of the office, February 1, 1916, a total of 16,708 placements have been made, which means a saving of over \$22,000 to applicants, in addition to more efficient service to the employing public.

# TO PRESENT PAPER

California's sole representative at the national convention of the Insurance Federation of America to be held in St. Louis from October 11 to 15, will be L. C. Frazer of Oakland. He will present a paper to the convention regarding insurance conditions in California and will direct the attention of the delegates particularly to the phenomenal industrial growth of Oakland in the last two years.

The Alameda county branch of the Insurance Federation of America, was formed about six months ago. The state body has been in existence four or five years. Its president is Warren R. Foster, former Lieutenant-Governor.

# BANK PROBE MAY DISCLOSE PLOTS

NEW YORK, Oct. 8.—Officials of the State Department and the Department of Justice are expected to confer tomorrow regarding a far-reaching investigation of all the New York city accounts of the Deutsche Bank. The revelations of Bolo Pasha's financial machinations in J. P. Morgan & Co.'s and other American banking houses precipitated the inquiry.

Deputy Attorney-General Becker of the State of New York expects to confer in Washington tomorrow with French Ambassador Jusserand regarding the preliminary steps of the investigation. He expects to consult with officials of the State Department and Department of Justice.

The inquiry is expected to determine to what extent and in what manner German money is said to have been used here to influence popular opinion or to corrupt public officials.

It is hoped that, through telltale bank records, the which German propaganda slush fund in this country will be traced.

The books and records of the banks examined by Parley Morse & Co. in ferreting out Bolo Pasha's transactions disclosed other vast sums of Deutsche Bank money which had also been shifted here and there in the same mysterious manner. Bolo obtained \$1,633,500 all told from the Deutsche Bank. The other Deutsche Bank deposits are said to have totaled \$50,000,000. Much of this is said to have been transferred through secret channels to German-American commercial houses and others before the United States entered the war. Since then still more German millions have been withdrawn from deposit. Just where this flood of money has flowed the government will now seek to discover.

# HANNA TO SPEAK AT BIG MEETING

Under the auspices of Alameda county's Catholic Federation, Archbishop Edward J. Hanna will speak at the Civic Auditorium, theater Wednesday night. The program begins at 8:15 o'clock with introductory remarks by J. J. Cox, president of the organization, under the auspices of which the exercises will be held.

Dr. J. S. Slavich has been selected as chairman of the evening. He will introduce Archbishop Hanna. A vocal solo by Miss Florence McDonnell, and violin selections by Robert Rourke precede the church head on the program. Miss Katherine Goggin will be accompanist for Miss McDonnell, while Mrs. A. White Rourke's accompanist, "The Star Spangled Banner," sung by the audience, will close the program.

# WORKERS TO VOTE

Decision as to the action that will be taken by the local branch of the Boilermakers' Union is expected to be reached at a meeting called for tonight at 8 o'clock in the Labor Temple to discuss the unsatisfactory condition that exists at the Alameda plant of the Union Iron Works. The condition in question has nothing directly to do with the recent strike, but is of local interest only, according to its present status.

According to the boilermakers' management at the Alameda plant refused to take back a man discharged under what the union believes an unjust ruling. It is understood that whatever the result of the meeting tonight it will affect only the Alameda plant of the Union Iron Works.

# FUNERAL HELD

The funeral of Mrs. Polly M. Burnham, 601 time resident of Oakland, was held this afternoon at the Burnham died Saturday at Fabiola Hospital. A service was conducted at 350 Perry street, Rev. Lynn White, an old friend, officiating. Private interment followed.

Mrs. Burnham had resided in Oakland for half a century, coming to California via the Panama route in the early days. She was the widow of the late O. H. Burnham, in his time a leading lumber and planing mill magnate. Mrs. W. C. Edes, her daughter, is in Alaska with her husband, chief engineer to the Alaskan railroad commission, and will be unable to attend the service. Mr. C. and Walter W. Burnham, her two sons, are local residents. Mrs. Burnham was a veteran member of the local W. C. T. U. She was 65 years old.

# PLAN NEW QUOTA

With the draft contingent sent yesterday to Camp Lewis safely on its way the Oakland exemption boards today were busy preparing for the detachment to be sent next Friday. To bring the next unit up to the highest possible number, representatives of the boards this afternoon prepared a letter to the district board in San Francisco asking it to take action of some sort on all Oakland cases pending before it, it possible within 24 hours after receipt of the letter.

The boards are to meet in conference held yesterday in the office of the Mayor.

In division 4 the first hundred of the new call of 300 men were given their physical examination, with results, it was said, not promising for a large addition to the fighting forces.

# AGED MAN HURT

His left leg and right arm amputated, Jacob Wing, a junk dealer of 223 Third street, lies at the Emergency hospital in a critical condition today after having been run down by a Western Pacific switch engine during the night at Third and Harrison streets. Because of Wing's advanced age, 70 years, hospital attendants hold little hope for his recovery.

It is thought that the old man endeavored to cross the street before the engine approached the crossing, but misjudged the distance and fell under the wheels. Wing has a wife and son in San Francisco.

# PRISONER MAY SOLVE THEFTS

John Henry Marvin, alias "Rusty" Reynolds and numerous other names, was charged with a burglary charge before Police Judge Morlimer Smith today, is believed by police inspectors to have knowledge of a score of daylight burglaries that have occurred in Oakland residence districts during the last two months and which have puzzled the police to solve.

Marvin, who was taken into custody last week by Inspectors Drew, Quigley and McCarthy, has been held in detentive by the police in hopes that they would be able to obtain from him some complete confession. So far, the man is alleged to have admitted the robbery of the home of O. B. Marsten at 387 Fifth street, where furs and jewelry valued at \$750 were stolen. Also to the theft of more valuables from another home. The police are endeavoring to locate a confederate who is believed to have worked with Marvin. So far he maintains that his operations have been single handed. But the police think that it would have been impossible for him to have done the total thefts and robberies without the aid of a lookout.

The manner of the burglaries was that Marvin would go up to a house where he believed no one to be at home and ring the bell. If there was no answer he would enter by way of the back door, steal the furs, the police believe, will aggregate several thousand dollars.

## What Women Of Club Life Are Doing

By Edna B. Kinard

"We man with a gun when he goes up against a strong nation is a comedy. Thousands of stalwart, armed and trained and thrown into battle line become a world power which makes the kingdoms of the earth to wonder. One woman in her home, saving her half cup of wheat flour, her bit of sugar and her portion of meat can have but a puny influence upon the destiny of the country. But millions of home makers, fired with patriotic zeal and blessed with the grit, grace and gumption of a true womanhood, hold within their hands the fate of democracy.

War has changed the whole fabric of our social intercourse. When once we strove to outdo our neighbors in the bountifulness of our services and the multiplicity of our dishes, it is the vogue to simplify and compress. Instead of "how much" it is "how satisfying" within certain very definite restrictions. Elaborate afternoon and evening refreshment at all social functions are at present in quite as bad taste as the dinner and luncheon wherein dishes requiring quantities of meat, dairy products, dried and canned soups and wheat are offered in the way of former days.

"There is only one flag in the war for civilization," proclaims the State Council of Defense and then asks "How can a hungry soldier fight?" "Answer: He cannot." The Patriotic Week formally proclaimed by Governor Stephens, clubs and society leaders everywhere in California are pledging themselves to conform to the program of the federal government in offering their devotion to the flag and country. It is promised that consistently and conscientiously they will not continue in the old ways of superfluous and showy eating. Committees will be instructed that menus will be grouped about the meat substitutes, cereals other than wheat, fresh vegetables and fruits.

Henceforth afternoon and evening refreshment for social functions which are quite smart will be limited to fruit punch or water ice sweetened with corn syrup, maple sugar or honey; with wafers or small cakes, using honey, oatmeal, barley, rice and other flour, and a variety of tartaric salts which save butter, wheat and eggs. The suggestion is sent out by Miss Ethel Moore, chairman of food conservation of the California Women's Committee, Councils of National and State Defense.

Conforming to the popular idea of providing their monthly feast along lines severely meatless and wheatless, the Oakland New Century Club assembled several scores of guests for a dinner in their West Oakland building in honor of the executives who preside over the destinies of the various federated clubs in the east shore district. "Things Worth While" was the general theme which was discussed by Dr. Arthur E. Reinhardt, president of Mills College, and Mrs. Kate Smith, president of Alameda district, California Federation of Women's Clubs.

The Collegiate Alumnae, California branch, has pledged itself to this policy of simple menu during whatever period the war shall last. The Mills Club of San Francisco of which Mrs. John Perline of this city is president, is one of the other strong organizations which have volunteered to conform to the new program.

Suggestions for functions of various sorts with menus which conform to the food conservation propaganda may be had from the First National Bank offices in the First National Bank building.

The Oakland Club will also offer a menu at the annual breakfast which will gather its members and a large number of distinguished guests in the Fourteenth street club room on Wednesday, October 17. Again are all the presidents of the federated clubs about the bay to be honored at what was once termed a "brilliant occasion" but will content itself this year with being "a simple affair."

Flags and national colors with inspiring music of a martial order will lend the true note of patriotism. The toasts are to follow the orders familiar to all men who wear the uniform of service; Mrs. Edgar L. Omelet, president of the club, who will preside as toastmistress has been given the first command "Attention." "Salute" has been assigned to Mrs. Frederick Athearn, president of the Twentieth Century Club of Berkeley. Mrs. J. A. Vandegrift, president of the "Shoulder Arms," "Mark Time" will be discussed by Mrs. A. O. Gott, president.

Buffalo, N. Y. "I am the mother of four children, and for nearly three years I suffered from a female trouble which pains in my back and side and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. E. E. ZILINSKA, 224 Wolfe Ave., Buffalo, N. Y.

Women who cover their health, not usually tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

If you need a medicine for women's ailments, try Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

Two notable weddings of the week end which were attended by many of the young folk were those of Miss Edna Kinard and Elsie Swift.

The Saturday evening in San Francisco, and Miss Marian Hook and Edwin L. Garthwaite of this city.

Both were church weddings, the settings artistic in the early fall blossoms and greenery.

Across the bay Miss McNear became the bride of E. Swift Train in the Church of St. Mary the Virgin, the service attended by a very large number of the friends of the McNear family, of which there are many in both sides of the bay.

The daughter of Mr. and Mrs. George W. McNear, who formerly made their home on this side of the bay. She is one of the loveliest of debutantes as well as the most popular. Link within their hands the fate of democracy.

War has changed the whole fabric of our social intercourse. When once we strove to outdo our neighbors in the bountifulness of our services and the multiplicity of our dishes, it is the vogue to simplify and compress.

Instead of "how much" it is "how satisfying" within certain very definite restrictions. Omelet, president of the club, who will preside as toastmistress has been given the first command "Attention." "Salute" has been assigned to Mrs. Frederick Athearn, president of the Twentieth Century Club of Berkeley. Mrs. J. A. Vandegrift, president of the "Shoulder Arms," "Mark Time" will be discussed by Mrs. A. O. Gott, president.

Buffalo, N. Y. "I am the mother of four children, and for nearly three years I suffered from a female trouble which pains in my back and side and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. E. E. ZILINSKA, 224 Wolfe Ave., Buffalo, N. Y.

Women who cover their health, not usually tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

If you need a medicine for women's ailments, try Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

Two notable weddings of the week end which were attended by many of the young folk were those of Miss Edna Kinard and Elsie Swift.

The Saturday evening in San Francisco, and Miss Marian Hook and Edwin L. Garthwaite of this city.

Both were church weddings, the settings artistic in the early fall blossoms and greenery.

Across the bay Miss McNear became the bride of E. Swift Train in the Church of St. Mary the Virgin, the service attended by a very large number of the friends of the McNear family, of which there are many in both sides of the bay.

The daughter of Mr. and Mrs. George W. McNear, who formerly made their home on this side of the bay. She is one of the loveliest of debutantes as well as the most popular. Link within their hands the fate of democracy.

War has changed the whole fabric of our social intercourse. When once we strove to outdo our neighbors in the bountifulness of our services and the multiplicity of our dishes, it is the vogue to simplify and compress.

Instead of "how much" it is "how satisfying" within certain very definite restrictions. Elaborate afternoon and evening refreshment at all social functions are at present in quite as bad taste as the dinner and luncheon wherein dishes requiring quantities of meat, dairy products, dried and canned soups and wheat are offered in the way of former days.

"There is only one flag in the war for civilization," proclaims the State Council of Defense and then asks "How can a hungry soldier fight?" "Answer: He cannot." The Patriotic Week formally proclaimed by Governor Stephens, clubs and society leaders everywhere in California are pledging themselves to conform to the program of the federal government in offering their devotion to the flag and country. It is promised that consistently and conscientiously they will not continue in the old ways of superfluous and showy eating. Committees will be instructed that menus will be grouped about the meat substitutes, cereals other than wheat, fresh vegetables and fruits.

Henceforth afternoon and evening refreshment for social functions which are quite smart will be limited to fruit punch or water ice sweetened with corn syrup, maple sugar or honey; with wafers or small cakes, using honey, oatmeal, barley, rice and other flour, and a variety of tartaric salts which save butter, wheat and eggs. The suggestion is sent out by Miss Ethel Moore, chairman of food conservation of the California Women's Committee, Councils of National and State Defense.

Conforming to the popular idea of providing their monthly feast along lines severely meatless and wheatless, the Oakland New Century Club assembled several scores of guests for a dinner in their West Oakland building in honor of the executives who preside over the destinies of the various federated clubs in the east shore district. "Things Worth While" was the general theme which was discussed by Dr. Arthur E. Reinhardt, president of Mills College, and Mrs. Kate Smith, president of Alameda district, California Federation of Women's Clubs.

The Collegiate Alumnae, California branch, has pledged itself to this policy of simple menu during whatever period the war shall last. The Mills Club of San Francisco of which Mrs. John Perline of this city is president, is one of the other strong organizations which have volunteered to conform to the new program.

Suggestions for functions of various sorts with menus which conform to the food conservation propaganda may be had from the First National Bank offices in the First National Bank building.

The Oakland Club will also offer a menu at the annual breakfast which will gather its members and a large number of distinguished guests in the Fourteenth street club room on Wednesday, October 17. Again are all the presidents of the federated clubs about the bay to be honored at what was once termed a "brilliant occasion" but will content itself this year with being "a simple affair."

Flags and national colors with inspiring music of a martial order will lend the true note of patriotism. The toasts are to follow the orders familiar to all men who wear the uniform of service; Mrs. Edgar L. Omelet, president of the club, who will preside as toastmistress has been given the first command "Attention." "Salute" has been assigned to Mrs. Frederick Athearn, president of the Twentieth Century Club of Berkeley. Mrs. J. A. Vandegrift, president of the "Shoulder Arms," "Mark Time" will be discussed by Mrs. A. O. Gott, president.

Over the week-end Mr. and Mrs. Wickham Havens motored to the McCloud Country Club to be with friends. Many of the country homes in that section have been opened for a few days, during the warm spell.

Mr. and Mrs. Van Horn Cooley who have been visiting their daughter at 160, have returned to Piedmont. While Mrs. Cooley was visiting here recently, Miss Madeline Mouser entertained in her honor, at luncheon, and among those who were asked to meet the bride were Miss G. Roth, Miss Minnetta Mier, Miss Florence Bradley, Mrs. Russell Cooley, and Miss Truxa Mouser.

One of the large dinner parties at the Hotel Oakland Saturday evening preceding the Baby Hospital ball, was given by Mr. and Mrs. Charles Triplett Hutchinson, and another by Mr. and Mrs. I. Harrison Clay.

Mr. and Mrs. Hutchinson's guests were Mr. and Mrs. William Thornton White, Mr. and Mrs. William Cavalier, Mr. and Mrs. Stuart Hawley, Mr. and Mrs. Harry Mosher, Mr. and Mrs. Roger Chickering and Mr. and Mrs. Charles Bates Jr.

In Mrs. Clay's party were friends from both sides of the bay; Miss Elizabeth Clay, Miss Elizabeth Mager, Miss Helen St. Goar, Miss Laura Miller, Will Tyson, Robert Adair, Alex. Adair, David Jordan and Harrison Ryker.

Mr. and Mrs. Thomas H. Reed of San Jose, are guests at the Shattuck Hotel, having motored to the bay section for a few days. Professor Reed is an associate professor of political science at the University of California, before taking office as city manager of San Jose has many friends in Berkeley. Mrs. Reed was a guest at the banquet Saturday evening at the Hotel Shattuck.

Alpha Delta Pi sorority in honor of their national president, Mrs. Irene P. Smith, who was elected to that office at the annual convention in Wisconsin.

News of the wedding of Miss Helen Short of Piedmont and Howell H. Auerbach of this city has just reached their friends, the couple having slipped quietly away to Santa Rosa, Monday afternoon, October 1, where they were married in the Methodist church. The bride was one of the most attractive of the younger girls of Piedmont circles, the daughter of Mr. and Mrs. C. W. Short. Auerbach is very well known in Oakland. He is a brother of Mrs. R. E. Auerbach, a brother of Mrs. Max Turner (Mrs. Auerbach, former Oakland belle) of Ann Arbor, Michigan.

Auerbach is now in training at a military school and will be in the United States army school at Fort Leavenworth.

Two of the younger men of the bay cities left Saturday for Annapolis where they have been assigned to headquarters at Washington. They are Ransome Henstam and Roland Stringham of Berkeley. They will have four months' training in the reserve there.

Lieutenant Ellery Stone, U. S. N., is to be the guest of his mother, Mrs. Edgar Stone for a few days. He was recently made superintendent of the government radio stations in Southern California.

Miss Milvia Warner leaves today for the east to join her fiancé, Robert Erick at Fort Leavenworth, Kansas. She was accompanied by her mother, Mrs. Joseph W. Warner. It is planned to have the wedding solemnized on Friday following her arrival at the fort. Erick is now stationed at the United States army school at Fort Leavenworth.

Saturday afternoon the last of a series of parties given for Miss Warner was that at the home of Mrs. A. C. Warner, where he is to be taken to the east for his military training.

Thursday evening, Mr. and Mrs. Myron Warner of Berkeley, were host and hostess at a dinner for the bride-elect, Mrs. Warner is planning to visit in Fort Leavenworth a fortnight before starting on her return trip to California, and en route home will stop in Los Angeles to visit with friends.

From Yreka comes the announcement of the wedding of Miss Olive Dawn Layman and Charles Cowan of Sacramento which was an event of Wednesday, September 18. The ceremony was read in the morning at 10 o'clock in Redding, by Rev. J. E. Burkhardt. The only witnesses to the marriage were the bride's sisters, the bridegroom, Miss Nellie Cowan, Miss Josephine Cowan and Miss Annie Cowan and Leslie Lorents of Weed.

Cowan would have entered upon his fourth year at Stanford had he not enlisted in the forestry service for France.

He is a medical student and both his father and grandfather were successful physicians and surgeons. Cowan is the son of Mrs. Anna W. Cowan of Sacramento, who is the daughter of Dr. Cowan of Fort Jones.

Mr. and Mrs. Charles S. Cowan came to San Francisco, where Cowan left for Fort McDowell, Angel Island. In a few weeks he will leave for Washington, D. C., where he is to take a course in the government forestry school, later going to France, where he is to work in the Pyrenean mountains on the borderland of France and Spain.

Beautify the Complexion

IN TEN DAYS  
Nadinola CREAM  
The Unexcelled  
Beautifiers

USED AND ENDORSED  
BY THOUSANDS  
Guaranteed to remove  
tan, freckles, pimples,  
liver spots, etc. Extreme  
cases about twenty days.

Rids pores and cleanses of impurities.  
Leaves the skin clear, soft, healthy.  
Two sizes, 50c and \$1.00. By mail  
counters or direct.

National Toilet Company, Paris, Tenn.

People Speak Well of Chamberlain's  
Cough Syrup

Have been selling Chamberlain's Cough Syrup for about two years and I can say that it is the best cough medicine I have ever used. It is guaranteed to remove tan, freckles, pimples, liver spots, etc. Extreme cases about twenty days.

Leaves the skin clear, soft, healthy. Two sizes, 50c and \$1.00. By mail counters or direct.

National Toilet Company, Paris, Tenn.

People Speak Well of Chamberlain's Cough Syrup

Have been selling Chamberlain's Cough Syrup for about two years and I can say that it is the best cough medicine I have ever used. It is guaranteed to remove tan, freckles, pimples, liver spots, etc. Extreme cases about twenty days.

Leaves the skin clear, soft, healthy. Two sizes, 50c and \$1.00. By mail counters or direct.

A dainty new kimono of exceptional comfort is made of pale blue crepe, bound at the neck and bottom with a metal cord of red, gold and silver. Translucent white beads are placed at intervals in the edging.

## Household Hints

Roll Oats with Cream.  
Creamed Chipped Beef on Toast.  
Coffee.  
Luncheon.  
Ripe Olives.  
Rice.  
Graham Flakes.  
Butter.  
Baked Bananas with Lemon Sauce.  
Tea.  
Dinner.  
Celery Soup.  
Roast Shoulder of Pork.  
Baked Squash Vegetable.  
Salad.  
Apple Pie.  
Coffee.

CANNING AND PRESERVING.  
New Mustard Pickle—One quart each of the following: Carrots, celery, little onions, pickles or sliced cucumbers (peeled), cauliflower, green tomatoes (sliced), yellow or green beans (cut), and

arate dish (except celery) in salt water. Boil for five minutes. Drain and pack in jars. Pour over the mixture a quart of vinegar until done. Seal. Some take ten minutes, others from twenty to twenty-five minutes; cook each separate. Then put two quarts of vinegar on to boil in granite kettle and when it boils have the following paste ready: Six tablespoons (rounding) red mustard, three and one-half cups granulated sugar, one cup flour, one level teaspoon turmeric, one level teaspoon red pepper. Add the vinegar slowly to the paste and stir until it is thick. Then put all vegetables in paste and cook slowly ten minutes. Paste is quite thin, but it gets thicker when cold. Seal hot. Makes about ten pint cans.

Apple Cakes—One teaspoon apples, one teaspoon sugar, one teaspoon mustard, two teaspoons cinnamon, two onions, one tablespoon salt, one pint vinegar. Peel and quarter a dozen sound tart apples; stew them until soft in a little water; add the paste and cook for a few minutes. Then put all vegetables in paste and cook slowly ten minutes. Paste is quite thin, but it gets thicker when cold. Seal hot. Makes about ten pint cans.

Mushroom Catsup—Use the larger kind of mushrooms known as umbrellas or long. These must be very fresh and not gathered in very hot weather or the catsup will be less apt to keep. Wash and cut the mushrooms in two or four pieces and place them in a wide, flat jar or crock in layers, sprinkling each layer with salt; let them stand thus for two hours, take out, press out juice, bottle and cork juice. Fill mushrooms back again and in another twenty-four hours press them again, bottle and cork juice. Repeat this for the third time, then mix together all of the juice extracted and to it pepper, allspice, one or more cloves according to quantity pounded together; boil the whole and skim as long as any scum rises. Bottle when cool. Put in each bottle two cloves and a peppercorn. Cork and seal. Put in a dry place and it will keep for years.

Grape Marmalade—Pulp grapes, but put pulp and skins together. Boil till skins are soft, then strain; add measure of sugar as there is fruit, let boil rapidly five minutes; can and seal while hot.

Elderberry Jelly—To one peck of berries picked from stems add two quarts green grapes; cook all together, put in bag and drip until morning. Then add a cup of sugar to each cup of juice and put on to boil until it commences to thicken (about thirty minutes).

## MONDAY, OCTOBER 8, 1917.

### SOLDIERS' INSURANCE.

One of the strongest arguments in favor of the soldiers' and sailors' insurance law which Congress has just enacted is that it displaces the ancient pension system with a better system. Under the old, obsolete system the government has appropriated and the people have paid since 1866 approximately five billion dollars. The disbursements under this heading are continuing at the rate of about \$155,000,000 a year. And this is all aside from the mischief and scandal of pension legislation of the past thirty years.

At the same time the pension system has afforded pitifully inadequate relief for those actually dependent upon the government for existence and who were entitled to consideration because of their previous service to the country. THE TRIBUNE recently described the benefits that will extend to the soldier and his family under the insurance law. The appropriation to start the new system is \$176,000,000. This cannot be taken as a guide to the ultimate cost, but in view of the prospective obligations of the government on account of the war it certainly will cost much less, comparatively, than the pension administration.

One important task now before the government is the practical and efficient administration of the insurance plan. In drafting the law the government had the benefit of the advice of insurance officials and actuaries and ought to have planned the system on a demonstrably sound basis. Yet these same insurance men who advised the government have severely criticized it for disregarding some features of their counsel and bringing forward features which they do not approve.

How vital are the things complained of remains to be seen. But it is somewhat comforting to read the opinion of the insurance journal, *The Spectator*:

"In any event the insurance plan as a whole prevents the abuses incident to the antiquated pension system, which has cost the country several billions of dollars, and it is confidently believed that it will prove beneficial to all entitled to share in its provisions, and productive of much saving in the long run to the government, and therefore, to the country at large."

On the other hand, the insurance committee which advised the government points out that "this enormous system for compensation springs into existence immediately"; no time is given for a gradual building up of organization. There will soon be insurance of \$5,000,000,000 in force, an amount about equal to the total insurance in force in the three largest companies in the world.

Yet these are criticisms that might be expected from the experienced insurance man—complaint against disregarding the lessons of experience which cautions small beginning and gradual growth. They are not necessarily justified in this case, where immediate provision for a large volume of insurance is necessary. If the government profits by the history of insurance and of the workman's compensation laws, features of both of which have been incorporated into the soldiers' and sailors' insurance plan, it ought to be able to proceed with reasonable safety. The judgment of the Congress that the principle of the plan is sound was unanimous.

### DIVERSIFIED CROPS.

The State of Arkansas is beginning to realize the benefits of diversified cultivation of the soil. The people of the State declare that never again will they be guilty of following the policy of putting all their eggs in one basket. Here are some of the reasons:

With a short cotton crop and a long crop of grains, fruits and vegetables, the farmers of Arkansas were approximately \$50,000,000 better off this year than they were in 1914. Arkansas in 1914 produced 1,016,170 bales of cotton which brought an average price of six cents a pound, or about \$35,500,000. In 1915 approximately 800,000 bales were produced, for which the producer got 12.4 cents a pound, or \$54,000,000.

Since 1915 the acreage planted to cotton has further decreased and the acreage of food crops has increased proportionately. Land that had been occupied by cotton exclusively for thirty years is now producing corn, wheat, oats, barley and beans,

sugar, potatoes and other vegetables. Arkansas is nearer feeding herself than ever before in her life, the farmers have more money and consequently more comforts than ever before, the railroads are hauling more tonnage, the banks holding more money and the stores selling more supplies than they did under the economic tyranny of cotton.

The case of Arkansas is only typical of a few other States that have taken up diversified farming in a practical manner and an example of which all ought to emulate.

### PEACE FORETHOUGHT.

The fact that the President has selected Mr. Justice Brandeis of the United States Supreme Court and Colonel Edward M. House to make a study of world conditions and collect and tabulate data which may be of use in the peace conference that will end the war should not be taken as a sign that an early cessation of hostilities is anticipated. His action may be explained correctly as a bit of necessary routine that every belligerent must attend to.

Several of the European allies already have appointed commissions to prepare for the peace conferences. The United States is the last to take up this work, a fact which may be explained by pointing out that this government was the last great power to enter the war. If all these commissions do not get together soon and compare notes, it is certain that they will exchange views by mail and cable and enter the parleys with the enemy commissioners in complete harmony.

Generally speaking, the United States will enter the peace negotiation as a disinterested power; that is, in comparison with the purposes which our European allies will have in hand. This, providing, of course, that the main objects which we entered the war to accomplish—to bring about a repudiation of the government by the ruthless masters of Germany who no longer can be trusted—is achieved before an armistice is declared. After democracy has been made safe from the Prussian menace and obedience to the law of nations and recognition of the universal rights of man are effected, our interest in the peace conference will be largely academic. "We want no new territories." "We have no selfish interests to serve."

But this academic interest is by no means unimportant. To advance it properly requires a deal of reliable information regarding the history, geography and ethnology of Europe. If the idea that every people has a right to govern itself as it sees fit is upheld a thorough knowledge of the racial problems of the Balkans will be very desirable, for one thing. Then there will be the question of establishing effective and permanent safeguards for the Christian Armenians and Syrians, of the Jews in what are now Turkish territories.

There has always been considerable mystery and secrecy about every government duty with which Colonel House was connected and naturally his present assignment is no exception. But he has been given an important task and one which will demand much work and close application.

No one can justly criticize Senator La Follette for assuming a defiant attitude in his Senate speech Saturday toward his critics, because in that he was true to his character. But he gained no fresh laurels for veracity and honest pleading when he charged that Congress has surrendered or permitted the President to usurp any of its constitutional privileges. The declaration of the existence of a state of war and the necessity for armed defense, and all the subsequent proceedings related to the war, have been in complete conformity to the mandates and grants of authority of the Constitution. As former Supreme Court Justice Hughes stated, the people of America are waging war under the Constitution and in the precise manner the framers of the Constitution intended they should.

Admiral von Tirpitz declares that the American Army is a phantom. Perhaps the admiral may recall that barely three years ago one of his colleagues said something about a "contemptible little army" of England. If so, he might go over to the German war office and check up the number of prisoners taken and the casualties inflicted by that contemptible little army. The result may instill a feeling of respect for the American phantom.

Although Representative Baer did not distinguish himself during his short term in Congress, the impartial judgment, after viewing his cartoons, must be that he did well to change his vocation.

### DON'T WHINE.

Young man, did you ever go on a camping trip? Did you ever lie around in a tent for days at a time, while the wind blew and the rain fell in torrents; while the mud was a foot deep and the undergrowth was so wet that it whipped the moisture through the skin as every step you took?

And was it ever your misfortune to have in your party a man who continually growled about the weather, the wet bedding, the water that seeped into the tent, spoiled the grub and made it almost impossible to build a fire? Almost every camping party has at least one such man in it. The others may be gay in adversity, may see fun in hardship and may enjoy themselves in spite of difficulties, but one whiner will go far toward wrecking the enjoyment of the whole party.

Well, young man, if you have been chosen to represent the nation in the new national army, you are going to a big camp. It may rain and blow, and at times the whole camp will be a sea of mud. There may be confusion at first with the attendant lack of equipment. The food may not be just like mother gives you at home. The work will be hard and much of it disagreeable.

Some of the men will grumble and growl. They will be the ones that made the most noise, and their example will affect the spirits of all the rest.

But, young man, don't whine. Enjoy the work if you can. If you can't, act as though you enjoy it. Don't grouse around and complain to your comrades, and, above all, don't write whining letters home. Your mother and sisters will feel badly enough without that.

You are going out to do a man's work, young fellow. Do it like a man—an American man.

Don't be a whiner.—Chicago Evening Post.

## NOTES and COMMENT

The picking of lemons has begun at Porterville, furnishing an anomaly. According to some reports from the State capital, lemons had been handed out for some months prior.

There is one thing about a mule that some people could well emulate. It has never been known to brag about its ancestry.

The Mayor of San Francisco may be insistent that the street car strike is not characterized by violence, but father-in-law Reid can hardly endorse that contention. He was hit with a brick that crashed through the window of a Valencia-street car upon which he was a passenger last Thursday.

There isn't any substantial difference between the argument that Senator La Follette puts up and the copperhead argument that was advanced during the Civil war. It was then contended that the action of the government was illegal and would not result in an enduring peace. La Follette merely reiterates.

The Chico Enterprise puts it diplomatically: "The promise of the county librarian to try to find some resident with the necessary training and qualifications to act as her second assistant indicates at least a degree of confidence in the average intelligence of Butte county's young womanhood."

Peru was the South American country considered the most pro-German at the outbreak of the war; but sentiment there has changed greatly, since the government is now on the verge of breaking diplomatic relations. It seems that no nation will stand the ruthlessness of the Prussian.

A certain interest attaches to the lawsuit to determine who is entitled to the honor of writing and the emoluments from publishing "Tipperary." Whether a definite conclusion is reached or not, the singing will go right on.

The refusal to exempt Henry Ford's son from the draft gains importance from the prominence attained by the father as an opponent of war in its earlier stages, and from the immense family riches. There were no valid grounds for the exemption, and that money was not permitted to figure furnishes an example that will disarm those who assumed that class distinctions characterize draft proceedings.

Geologic item from the Redding Searchlight. "The summits of the Sierras in most places are made of rock and the rock is gradually disintegrating. In the course of some hundreds of thousands of years it will be fine enough and will lie level enough to be good farming soil. Many by that time may have developed beyond the point of wars and the farmer may then be assured of the just fruit of his labors without benefit to middlemen."

The woman fan vindicated her right to the title by standing in line all night, through the rain, to get the privilege of buying a ticket to the first game of the world series. More and more sex distinctions are being eliminated.

The prediction of scientists that an Alaskan volcano will not break out again for a thousand years reminds one of those pert persons who are always saying things that is what some scientists said four years ago about war.

Correcting the delivery problem, which has become a great burden in retail merchandising, is making headway. The most effective remedy is making it an object for marketers to pay cash and carry their purchases home. H. C. L. thus gets a plexus blow, and much labor is saved for employment in useful ways.

Nobody can accuse T. R. of insincerity when he says he envies the boys who are going over to the war. He wanted to go when the going was not so good.

### SPIRIT OF THE STATE PRESS.

Mayor Rolph is going to run for Governor. He hasn't announced his candidacy in so many words, but the newspaper offices are in receipt of a letter from former Chief Justice Matthew Sullivan, in which the manner in which the Mayor maintained peace during the labor disturbances is highly commended. If the Mayor is not casting his eyes toward the Governorship, why the letter? Incidentally, it appears that Sullivan is going to have a hard time making that whitewash stick to Rolph's coat—Redding Searchlight.

The deadly anthrax that has been sweeping through some of the finest stock ranches in Yolo, Sonoma and adjoining counties claimed a human being Sunday night, when Asa C. Hyde of Susan died at a Sacramento hospital from the disease. Hyde was a ranch hand, employed by Sheriff McDonald, and contracted the disease there. He was treated at Susan, but his condition grew rapidly worse, and last Saturday afternoon he was taken to Sacramento. Serum was procured from Berkeley, but the case was too far advanced. Hyde had worked around cattle that died on the McDonald ranch from anthrax, and is thought to have become infected through the bite of a mosquito or fly which carried the anthrax germ—Vacaville Reporter.

Some of the thriftiest trees in Santa Rosa are camphor trees. They were brought across the Pacific many years ago, and they have grown here like native vegetation. This is of possible commercial interest in view of the fact that in Florida and Texas the government has been experimenting with a view to creating a camphor industry in this country. The trees have been planted in close rows, forming attractive hedges, and it is found that the best yield is obtained from trimming the hedges in the spring and fall during the dormant season.—Santa Rosa Republican.

## "THIS IS A RIGHTEOUS WAR; AND A RIGHTEOUS WAR MUST BE WON."—Wm. H. Taft.

## BUYING MADE SAFE AND EASY

How Advertising Protects and Saves the Public

Does the average person ever stop to think what a safe and easy thing buying has become in our day? What a contrast to the way it used to be within the memory of many persons.

Mr. John Sullivan, secretary of the association of national advertisers, in a recent interview said some things on this subject which should interest every buyer in the world. For his part, he is a man who knows a thing or two about the subject of buying.

Today, said Mr. Sullivan, "the housewife sends her little child to make purchases at the corner grocery. She sends her with perfect confidence that, even though a child, she cannot err therein. All that the child needs is explicit instructions to buy this or that. In the case of all staples produce the price is known, the quality is known and the name is known. There is practically nothing about the goods that is unknown. And to be sure of getting exactly what you want, it is only necessary to name the goods."

"It is the same in other stores of nearly every kind. 'What a contrast to the days of our fathers, when practically all buying was a hazard—impossible for the child and risky even for the parents! 'In those so-called 'good old days' soap was just soap, prunes were just prunes; coffee was coffee, and so on through the long list of things that are used in every home. 'In no case was there any guarantee of quality—or any sure way to identify goods that might have proved satisfactory so that the same goods could be bought again. The whole buying game was just a game—a game and a gamble; with all the odds against the buyer."

"Then gradually, step by step, came the great change. The trademark began to appear—a positive means of identifying goods. And with the trademark came advertising on a national scale—the best, the surest, the cheapest, the only efficient way of making the merits of these goods known to buyers everywhere. Trade-marked merchandise was soon found to be good merchandise—worthy of every buyer's confidence. In fact, trade-marked articles have got to be good. The trademark identifies them, advertising proclaims them, and by thousands and millions make their qualities positively known. Only first-class merchandise can dare to court such a test. A well-known trademark is an asset of priceless value for a good article, but it would be sure death for a poor one, for in that case it would be not a guarantee but a warning to the buyer. It would help him to identify the bad as well as the good; to avoid the one and choose the other."

"The greatest achievement of modern advertising is that for the first time in the history of the world's merchandising it protects the buyer; it makes buying both easy and safe. The value of every trademark depends on the good will of the buyer, therefore this trademark, which positively identifies the goods, for better or for worse, is the buyer's sure and certain guarantee."

### CAMOUFLAGE.

She saw a lovely knitting bag. Surrendered to its charm, And bought it, though the price was steep, To hang upon her arm. It was a most capacious one, Pale blue with applique Of cretonne roses, and a bow Upon the handle gay.

Oh, can she knit? No, not a bit. Nor will she learn the art Of making caps and comforters To cheer a soldier's heart. But when she takes a boat or train She never for a minute She carries Fido in it. —Minna Irving, in New York Sun.

### TODAY 20 YEARS AGO

W. R. Davis announced that if the Republicans of Alameda county promised him united support he would run for governor.

The Oakland, San Leandro and Hayward Electric Road purchased the San Francisco Velodrome track with the intention of removing it from San Francisco to Oakland. The removal of the track to this side of the bay would, it was predicted, mean a big boom in cycling in Oakland.

Chief of Police Lloyd asked Health Officer Lunn to prepare a set of rules to be followed by the Police Department in cases of accident or sickness.

George Jones, a conductor on the Alameda electric road, and a nephew of State Senator Eli Denison, became the hero of street railway employees when he thrashed a masher who attempted to flirt with a young woman in a street car.

### LIBEL AT MARKED-DOWN RATES.

Modesty and self-restraint mark the estimates of damages set forth in the libel suits of Chicago's mayor. In an era of billions asking for a mere million suggests a marked-down suit.—Omaha Bee.

### A POET ASTRAY.

The poet who submitted verses in which the word entente is used in this wise, "En-tent-ee tonight on the old camp ground," may have the same by calling—Seattle Post-Intelligencer.

## AUTO VICTIM NEAR DEATH; GIRL WAITS

Sitting by the bedside of Fred W. Lange in the Emergency Hospital, Miss Emma Lindauer is waiting to learn whether or not Lange will die as the result of the accident at Death Curve, Boothill Boulevard, when he was run down by a machine driven by Joseph Verria, 835 O'Farrell street, San Francisco. It is believed that Lange, whose residence is 2737 Faxon avenue, San Francisco, has a fractured skull in addition to two broken legs. He has not gained consciousness since the accident.

Miss Emma Lindauer, of San Francisco, companion of the injured man on the fatal trip, sits at the bedside at the receiving hospital anxiously waiting for a sign of recognition.

Miss Lindauer says that their car was driven to the curb and that Lange was standing by the hood repairing the punctured tire when the oncoming machine crashed into them, throwing her against the door. As soon as she could collect her wits she got out and found the wheel of the other car standing on her friend.

The driver of the car, who according to the name he wrote on a card which she has pinned to her dress, was J. O. Verria, 835 O'Farrell street, San Francisco, was standing by, stunned by the accident. She says she asked him to help Lange but that the man was so weak that he could do nothing. She does not remember how Lange was released. Verria declared to Miss Lindauer that he could not account for the accident. He was driving alone, and Miss Lindauer says he had not been drinking. She believes from his bewilderment that he had dropped asleep.

**RESCUED BY MOTORIST.**  
Shortly after the collision, which wrecked both machines, Joseph Galmarino, 544 Forty-sixth street, came along and carried the injured man to the hospital. Lange is 25 years old. He is no relative of Louis J. Lang of this city, who was killed instantly last week at the same spot in the same way.

The injury to Lange is the most serious of a number of casualties resulting from automobile and motorcycle accidents around the bay Sunday. Also there were several miraculous escapes and one cause of alarm to an entire household.

Occupants of the residence at 550 Thirty-third street were awakened early yesterday morning by the sound of crashing walls, heavy quiverings of the earth and all the elements which go to make up a disaster. The residents, who were sleeping there, and other residents, summoned up courage to run from the place. They found, after investigation that a powerful automobile had crashed through a fence and rested half way between the pany bed and the sitting room.

The driver was arrested on the charge of driving an automobile while intoxicated.

## All Not Work at Camp Lewis; Vaudeville, Baseball, Entertain

Men now in training at Camp Lewis find time each day for a little recreation. In this picture of a rest hour, A. W. HENNING of Oakland is shown playing a violin, while GEORGE CHANEY of San Francisco does a few steps.

He was released on \$100 bail. After many efforts the automobile was finally pulled from out the side of the home. Dr. F. E. Jackson, Commissioner of Public Health and Safety, did not live fully up to his title last night, when his automobile collided with a motorcycle, injuring one of the boys on the two-wheeled vehicle. Russell Jones, 15 years, residing at 2492 Valdez street, received minor injuries. He was taken to Emergency hospital by Dr. Jackson, where his services were attended to. Norman Bligh, 1781 Orange street, who rode with Jones, was unhurt. Both Dr. Jackson and the youthful riders were held blameless for the accident, according to witnesses, the machines proceeding slowly at the time. The crash occurred at Grand avenue and Harrison street.

**LOS ANGELES, Oct. 8.**—Two are dead and twelve injured today as the result of Sunday's automobile mishaps. Edward St. John was killed when run down by a "mystery" machine. An unidentified man was also struck and killed by a speeding car.

## Oakland Violinist Idol of Camp; Former Seal Pitcher Is Star on Diamond

**CAMP LEWIS, American Lake, Wash., Oct. 8.**—It is not out here at the training camp of the national army, for there is talent to stage anything from a vaudeville show to a first-class ball game and the men are given chances enough to show what they can do. In these relaxations the bay cities representatives are well to the front.

Provisional Ambulance Company B, mustered in San Francisco, has provided two entertainers whose efforts never have failed to draw a crowd—A. W. Henning of Oakland and George Chanev of San Francisco. Henning is an accomplished violinist, which, for the purposes of the camp, becomes a "fiddler" and Chanev has won fame as a jig dancer. Combining their talents they have been a source of joy to the nation's army.

**OLDHAM IS STAR.**  
"Red" Oldham, former twirler for the Seals, was the star of the ball game yesterday in which the Third Hundred and Sixty-third regiment defeated the Knights of Columbus team of Tacoma, 5 to 1. Oldham pitched the first two innings for the regiment and in that time not a Tacoma man reached first. He went out of the box only to give two other promising candidates a chance to show what they could do.

Special trains brought 3500 men to camp yesterday, increasing the total now here to approximately 23,400. Among the arrivals from this state were ten Plute Indians and several Mexicans from Inyo county. Other California counties represented were Imperial, Mariposa, Los Angeles, Stanislaus, Kings and Kern, with the cities of Stockton, Fresno and Los Angeles.

## MYSTERY OF HYPO SCARS IS UNSOLVED

Mystery still veils the attack made early Saturday morning upon Mrs. Edna M. Taylor, 28-year-old wife of Sergeant A. L. Taylor of the Piedmont police department, who was summoned to his home at 228 Sunnyside avenue by her voice over the telephone and found her lying unconscious on the floor with six needle-like punctures in her arm. Her tale that the wounds were inflicted by a hypodermic syringe in the hands of a strange man whom she shot in the leg has been investigated by inspectors of the Oakland police department, who have thus far obtained no clues.

Mrs. Taylor said that she was awakened shortly after midnight to find a strange man bending over her bed. He attempted to seize her arms and hold her down, but she slipped to one side and struck him in the face. The intruder then struck her a heavy blow on the head, she declared, and a hypodermic needle into her arm several times, dragged her from the bed and started toward the door, half-carrying and half-hauling her.

Feigning faintness, she pleaded for a drink of water. After her assailant had gone into the kitchen after a glass of water, the woman stated, she took her husband's revolver from a bureau drawer and shot the intruder in the leg as he returned. At this juncture a confederate is alleged to have made his appearance with a cry of warning, and the two men hurriedly left the house. Mrs. Taylor then called up her husband at the police station and collapsed.

Dr. J. D. Grissim, 1909 Oakland

## 10,000 MEN TO BE RAISED BY LIBERTY PARADE

Ten thousand men from the United States army and navy will be strictly military and naval, and preliminary arrangements have already been made for the participation of the army. The matter has been taken up with General A. R. Murray, commander of the western division, and late this afternoon B. T. York, chairman of the committee in charge, will confer with General Murray to arrange details.

The Liberty parade is being arranged to arouse enthusiasm for all branches of war work and to give east bay residents some idea of the stupendous task which confronts the United States in the raising of men, money and equipment.

## WANT RAISE, TOO

Operators at the fire alarm station, like people in other vocations, are victims of the high cost of keeping alive. They have requested the civil service board to give them a raise in salary. The board will act on the application Tuesday night.

According to the operators—four in number—they labor throughout the year without a vacation, get one day out of seven off, while similar operators in other cities receive one out of four days for recreation, and receive salaries which they believe not equal to the labor involved. They present they are receiving \$125 the month. They ask an advance of 20 per cent.

avenue, who was summoned by Taylor, found the woman in a semi-conscious condition.

"Mrs. Taylor is suffering from hysteria," he said this morning, "and is still under my care. The wounds on the arm do not look like those which might be made by an ordinary hypodermic needle. I have not found any evidence in her condition to indicate that any drug was injected."

## DESTROYER CONTRACTS TO BE RATIFIED

Contracts for destroyers totaling many millions of dollars, will be ratified today, Secretary Daniels stated in a telegram to local shipbuilding firms. Included are big awards to the Union Iron Works of Alameda.

Contracts for the huge number of destroyers for which an emergency appropriation of \$350,000,000 was provided very recently have all been signed. The number of destroyers contracted for and all of the companies to which the contracts were awarded were withheld, but they may be published today. It is known that the estimate was based on a plan to build at least 150 in addition to the present force.

## DELAY FLIGHT

Owing to the dense fog that overhung the Exposition grounds, the scheduled airplane flight by Joseph King, president of the Oakland Chamber of Commerce, and J. R. Arubie, millionaire aviator, for the dropping of a wreath on the Column of Progress in commemoration of the deeds of Sergeant Douglas MacMonagle, late member of the Lafayette Escadrille, had to be dispensed with. The flight will, however, be carried out on the first clear day.

The Pacific Aero Club, of which MacMonagle was a member, conducted a memorial service yesterday at the base of the column, participated in by several hundred friends and admirers of the fallen hero. Rev. F. W. Clappett delivered the principal address.

## SUPERVISOR IN CLASH ON DIGNAN JOB

"We would save time and expense if we appointed a commission to act for us as supervisors of Alameda county," declared Supervisor Charles Heyer this morning. "Is the County Institutions Commission to run things as they see fit? In that event, we might as well step down and become figureheads. Why, I am chairman of the hospital committee; why is there a hospital committee at all if resolutions are to be brought in here and rushed through without giving us time to consider them?"

The question under discussion was a resolution adopting the recommendation of the commission that James Dignan, storekeeper at the county infirmary, have his salary reduced from \$125 and maintenance to \$150 a month without maintenance. A similar resolution making the reduction to \$125 without maintenance, however, was read last Monday and laid over at the request of Supervisor Heyer.

As soon as the resolution had been read Heyer was on his feet.

"I wish to take exception to this resolution," he said. "The amount of salary proposed is not sufficient, in return for the work and responsibility involved. It is Dignan's wages. As chairman of the hospital committee I should have been consulted in this matter. I take it as a personal affront that I have not been consulted."

"I want some time for investigation. This Commission never meets with the supervisors, or if it does meet with us, no conclusions are reached. Let us investigate the costs of operation of the hospital as they compare with those of a year ago."

Harrison S. Robinson, chairman of the commission, took the floor in response to Heyer. "This is not a new resolution," he said. "As for consideration, that has been given to this matter for several weeks. There is an immediate necessity for providing accommodations for inmates who are to live on the grounds of the county infirmary. It is the experience of other institutions that no families of employees should live upon the grounds, with the exception of that of superintendent. We wish to take steps to have the cottage not occupied by Mr. Dignan's family put in shape for occupancy by other employees."

"The last time Mr. Heyer was with us he told us frankly and candidly that he was against us and that we could count upon him as an antagonist in the future. Under these circumstances I do not see that he can logically complain that he has not been consulted."

"MISTAKE," SAYS HEYER. "We made a mistake when we appointed this commission, saw it, and if we are going to have commissions and allow them to run matters as they choose, I think that we had better appoint one to do all our work for us."

The resolution was finally laid over for one week, Supervisor Heyer promising that he would vote next Monday morning on the measure.

Joseph H. King, president of the Oakland Chamber of Commerce, appeared on behalf of the Alameda County Liberty Loan committee with a request that funds be voted from the advertising fund to assist in the expenses of the military parade which is to be held on October 20. He was informed that there are practically no funds available and that the consent of the Alameda County Exposition Commission would be necessary before such an action could be taken.

## Liberty Bond Sellers Are Early on the Job

### Committees Named to Orate for the Issue

The second week of the Liberty loan "drive" in Alameda county was enthusiastically launched today.

The first contingent of the volunteer sales force reported for duty at 9 o'clock this morning at headquarters, Syndicate building.

The Leroy Sargent Company, financial securities, has turned its entire force of bond salesmen over to the Liberty loan committee.

Tomorrow D. E. Perkins, manager of the local Burroughs Adding Machine Company, will lead his sales force in canvassing the city in behalf of Liberty bonds.

Alameda county citizens must raise at least \$10,000,000. A little more than one-tenth has been subscribed to date. It's up to you, now.

Are you going to wait to be asked to buy a Liberty bond. Or are you going to volunteer your pocket book and do your bit toward "making the world safe for democracy?"

While impressing the citizens with the fact that it is their patriotic duty to buy the new 4 per cent Liberty Bonds, the campaign committee presents the following concise investment features of the bonds:

#### THE TALKING POINTS.

The new 4's are exempt from all State and local taxes.

The new 4's are exempt from the normal Federal income tax.

New 4's are a principal amount of \$5000 in the hands of each investor, in addition to the above, are exempt from ALL Federal taxation except estate and inheritance taxes—that is, are exempt from surtaxes and excess profits tax, as well as normal income taxes. This means that as regards the average citizen, including those in comfortable circumstances, the new 4's are practically tax exempt.

Official statistics show that of the 100,000,000 or more population of the United States, only 3824 have incomes above \$100,000 per annum, and in the case of those having an income less than this figure, the new 4's are a more desirable investment than the first fully tax exempt 3 1/2's of the first loan.

Phil M. Carey addressed a large

### Coming Events in Big Liberty Loan Campaign

Saturday, Oct. 13, 10 A. M.—School Children's Parade. Five thousand boys and girls in line of march.

3 P. M.—J. C. Struble, Oakland aviator, flies over city, dropping announcements of evening's Liberty bond rally.

8:30 P. M.—International Liberty Bond Rally, City Hall Plaza, auspices of Oakland Ad Club.

Saturday, October 20.—Boy Scouts start five days' "bell ringing" campaign.

Monday, Oct. 22.—Rev. Billy Sunday speaks at Liberty mass meeting in Municipal Auditorium.

The publicity department of the Liberty Loan committee, headquarters in the Syndicate building, wants 100 slogans for the School Children's Parade Saturday morning. Here are two samples:

"When I grow up, will this be Germany or America?"

"Remember the babies on the Lusitania."

Send in slogans today.

gathering of citizens at the army and navy football game at Idora Park yesterday afternoon. He presented the following statement as to the operation of the Liberty Bonds:

"The government says, 'I will take your money for this bond and I will promise to pay it back in twenty-five years from the day that I take it; but I may be so prosperous that I will want to pay it back in ten years.' So the bond reserves for the government the right to pay it back any time after ten years. It promises definitely

### Big Week Ahead in Oakland Drive

to pay in twenty-five years, but may pay any time after ten years. So the bonds are called 10-25-year bonds.

"Then the government says that, 'If I hire your money I must pay for the use of it—so every six months I will pay you two dollars rent for the use of each hundred dollars, or four dollars a year for each one hundred dollars—and as four dollars is four per cent of one hundred dollars, we have a 4 per cent bond.' Then the government says, 'I want to play fair, and if later I have to pay a higher rent for more money, you who let me have money now at 4 per cent should not suffer for coming to my assistance promptly, so I will agree that if I pay more to anybody else I will pay you the same if you will turn in the bond you get now and take one of the new ones. That is called converting your bond,' so the government prints this agreement on the bonds and calls them convertible, so that to make the whole thing plain these bonds are called:

"United States of America 10-25 Year 4 Per Cent Convertible Gold Bonds."

Dated November 15, 1917. Due November 15, 1942.

"Redeemable at the option of the United States on and after November 15, 1927."

SPEAKERS NAMED.

Postmaster Joseph J. Rosborough, chairman of the speakers' bureau for the Liberty loan campaign, has appointed the following members of the "forensic artillery," who are subject to call at any time in the day or evening:

Edgar H. Barber, E. F. Potter, Frank de Lisle, Dr. J. Loren Pease, H. C. Schroder, Albert C. Agnew, John M. Lyle, William Nat Friend, E. C. Lyon, David Oliphant Jr., De Lancy C. Smith, Peter J. Crosby, Roscoe G. Jones, R. C. Bitterman, E. D. Goodfellow, Larry J. Moore, George Schneider, James Pedgriff, Charles A. Beardsley, Jesse J. Dunn, C. A. Harp, L. F. Moore, Robert Robertson, A. Vander Naiten, Erza W. Decoto, Earl D. White, Joseph N. Burroughs, K. L. Hamman, H. G. Newman, C. M. Schrader, E. A. Vandevetter, Edward W. Eng, Fred M. Hunter, J. R. Munsell, George Sheldon, Phil M. Carey, Wm. R. Geary, Charles E. Snook.

## CHINESE ARE ORDERED TO PENITENTIARY

On the first convictions obtained in the Angel Island Chinese smuggling plot were sentenced Soo Tu Chung and his two sons, Ah See and Lin Chi, to 18 months in the Federal penitentiary at McNeil Island, and nine months in the county jail for his sons for conspiring to smuggle Chinese into the country.

In sentencing Chung, Judge Van Fleet said: "If you will tell us who the men are from whom you obtained the landing records from the files at Angel Island, I will recommend leniency to the President." This Chung would not do.

It was brought out in the testimony that he had been "hopped" in 1897 via England, Vermont, and the records alleged to have been issued by Commissioner of Immigration McGovern.

Two young Chinese boys who had been brought into the country by Chung in July were sentenced to 30 days in the county jail pending their deportation by a steamer sailing prior to the expiration of their sentence.

SCHOOL EXHIBIT

Open house for the public and a program intended to emphasize the benefits the city is deriving from courses at the evening high school will be held tonight and tomorrow night from 7 to 8:30 o'clock. All classes will be in progress, exhibits will be made of students' work, and charts will show at a glance the classification of occupations, aims of the school and the relationship of their courses to their life work.

There will be a concert by the Oakland Community Orchestra of 57 pieces tonight at 9 o'clock. The 2000 students of the school are preparing to act as hosts.

FREDRICKS RITES

The funeral of Lewis Fredricks, who died yesterday, will be held Wednesday afternoon. With Rev. William Keeney, Town of the First Baptist church officiating, a service will take place at the Fredricks residence, 118 Sunnyside avenue. Members of the local union of carriage painters will be present, Fredricks having been a charter member.

Surviving Fredricks is a widow, Mrs. Harriet Fredricks, and two daughters, Mrs. Lydia Sherman and Miss Evelyn Fredricks. A native of Kentucky, 70 years old, he had lived 65 years in the state, half of that time being spent in Alameda county.

DIES IN STREET

Collapsing on a street car at San Pablo avenue and Broadway, a man known about the age of 45, dressed like a laborer, with a dark coat and corduroy trousers, was taken to the receiving hospital this morning at 8:30 where he died shortly afterward. The cause of death was pronounced pneumonia. He was unconscious from the time of his collapse on the street car, and the authorities have not been able to learn his identity. The body was taken to the morgue.

SEEK BAY PIRATES.

Search is being made by the police launch Jewel today in an effort to locate the thieves who late last night stole from Pier No. 41 in San Francisco three barrels of linseed oil and 120 pounds of white lead and made away with the loot in a launch. The launch is believed to have crossed the bay and entered the estuary.

Even in these days of higher prices, \$25 buys a good suit. \$1,000,000 would buy such suits for 40,000 of you men. That would be a satisfying way to please 40,000 of you. But—

There's a \$1,000,000—or more—we spend that pleases many times 40,000 smokers. It's the \$1,000,000 we spend to "sureify" the mellow fragrance of your OWL Cigar. Let us tell you how.

## NOT BILLBOARD; JUST APPEAL TO AID UNCLE SAM

It's all right. The city hall plaza is not being desecrated. The giant billboard, sixty feet high, twenty feet wide and with a base of fifty feet, that is being erected at the southeast corner of the plaza, does not mean that some corporation has convinced the "city dais" that a billboard at this locality would not only be picturesque but make a handsome return to the municipal treasury.

This monster sign board is erected in the name of "Liberty, justice and right."

On it will be painted the most colossal figure of Uncle Sam ever produced in America.
